

PRIMARY CARE DIETITIANS' ASSOCIATION
Association des Diététistes de soins Primaires

20 ANNUAL 26 CONFERENCE SPONSORSHIP PROPOSAL

June 18 - 19, 2026 | Virtual Conference

About Us

The Primary Care Dietitians' Association (PCDA) officially launched in April of 2020 to support and advocate for registered dietitians working in primary care across Canada. We started as the Family Health Team Registered Dietitian Network in 2006 and have grown over the years to now include dietitians working in various primary care and outpatient settings, private practice and Aboriginal Health Access Centres. As a group of diverse dietitians, our members support one another in practice, sharing and expanding our knowledge base to support patient-centred best practice within primary care.

Our Values

- Evidence Based Practice
- Interprofessional HealthCare
- Collaboration & Sharing
- Continuous Learning & Improvement
- Transparency
- Diversity, Equity & Inclusion
- Mentorship and Preceptorship

Vision

Primary care dietitians are the leaders in equitable and inclusive medical nutrition therapy for our communities and clients.

Mission

Encouraging primary care dietitians to become highly skilled in providing equitable and inclusive medical nutrition therapy, disease prevention and health promotion through collaboration, education and mentorship. We advocate for access, capacity and integration of dietitians within comprehensive primary care.

Why Sponsor This Event?

1 Support Dietitians

- Dietitians are trusted experts who influence every area of food and nutrition.
- Dietitians provide care for and advocate on behalf of Canada's diverse population.
- Dietitians are committed to continued education and development.

2 Amplify Your Impact

- Expand your business network
- Raise your corporate profile and brand visibility
- Demonstrate leadership by supporting the advancement of nutrition research, health equity, chronic disease prevention, and culturally relevant care
- Gain recognition within the dietetic profession and in other health professional associations
- Gain audience insights for your products and services as dietitians often collect information on various lifestyle and psychosocial factors that is relevant to marketing
- Demonstrate commitment to community engagement and health and well-being of others (Corporate Social Responsibility)
- Cost-effective marketing | Targeted exposure to a highly relevant audience, offering a cost-effective alternative to traditional advertising while delivering impactful visibility for your brand
